

## **ADV Part II**

The following document is an ADV Part II. This is the legal document on file with the California State Department of Corporations that lists Merrithew & Thorsten, Inc. as a Registered Investment Advisor. Every person holding himself or herself out as an Investment Advisor must have an ADV on file with the state or Securities and Exchange Commission. Additionally, the law requires all Investment Advisors give a copy of this form to all clients or prospective clients. If any "advisor" refuses to provide a copy of this form, does not know what it is or claims not to need one, it is advised that you look elsewhere for financial advice.
